LEADERS
TERCE

Trendy

- „We won't invest in SDI anymore" (EMG)
- „To build up an IP live production we no longer need to stay with uncompressed. JPEG XS brings the same benefits of low latency and high quality - visually lossless. We don't see any reason, except to spend more money, to stay with uncompressed." (intoPIX)
- „Our strategy does need to take into account the trend away from traditional broadcast. But we don't view that as a bad thing" (BBC)
- „In 10 years, there won't be any SDI at the show and probably everything will be IP and in the cloud" (GVG)

Trendy

- TV→IP
- IP→TV
- Cloud a obecně SW řešení
- Méně jednoúčelového HW
- Standardizace
- Vzdálené produkce
- Automatizace
- LED a virtuální produkce
- Multiplatformní distribuce
- FAST channels (Free ad-supported streams)
- Nové obchodní modely pro technologii i distribuci
- Problémy s dostupností
- Růst cen

TVBEurope Best Of Show 2022

- Hitomi Broadcast: MatchBox Latency
- Dejero: EnGo 3x
- Yospace: Dynamic orchestration of SSAI for multiple live events
