BirdDog Cloud 3.0

- Kontribuční platforma
- Propojení SDI, NDI signálů kolem zeměkoule
- Transportní SRT engine BirdDog media pipeline (JPEG-XS)
- End-to-end 128/256 bit AES encryption
- Podpora pro různé platformy

The screenshot displays the BirdDog Cloud 3.0 interface. At the top, it shows the BirdDog logo and the current connection status: "BirdDog HQ Endpoint" with a location of "Melbourne". The interface is divided into several sections:

- Incoming Connections:** A grid of connection cards. The first row contains five cards: "BirdDog HQ Endpoint", "NDI Source - 60b350", "BirdDog HQ Endpoint", "BirdDog HQ Endpoint", and "BirdDog HQ Endpoint". The second row contains three "BirdDog HQ Endpoint" cards followed by a plus sign (+) in a dark box.
- Outgoing Connections:** A grid of connection cards. The first row contains two "BirdDog HQ Endpoint" cards followed by a plus sign (+) in a dark box.

On the left side, there is a sidebar with a search bar and a list of endpoints with connection counts and percentages (e.g., "75%", "10%"). At the bottom left, there are social media icons for Instagram, YouTube, and LinkedIn, along with the text "Dog.tv".
